

下面介绍的方法论坛里已经有了，只是用图片方式介绍一下绑法，里面会教大家每一根线的绑法

其实是有规律的：1386板是左上角开始绑

2475板是左下角开始绑

蓝色：魔板正面

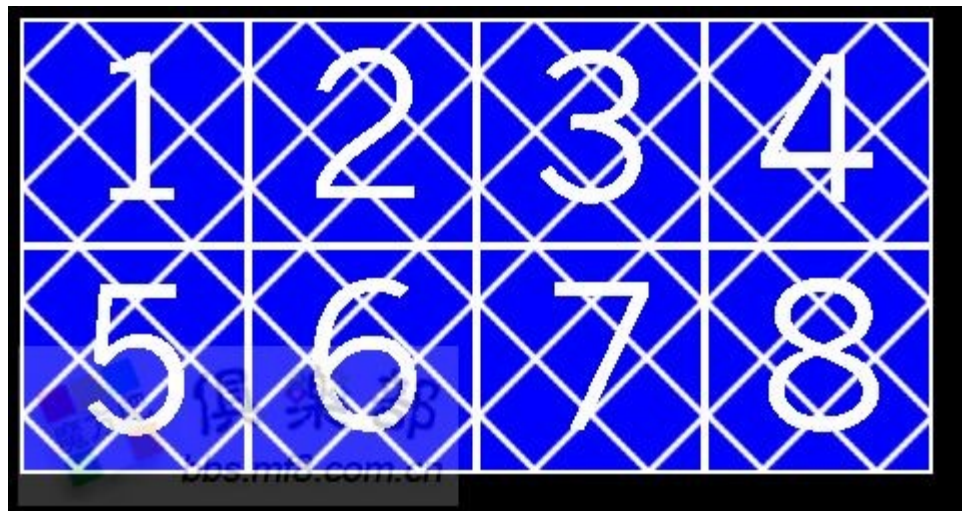

绿色：魔板反面

箭头：翻转方向

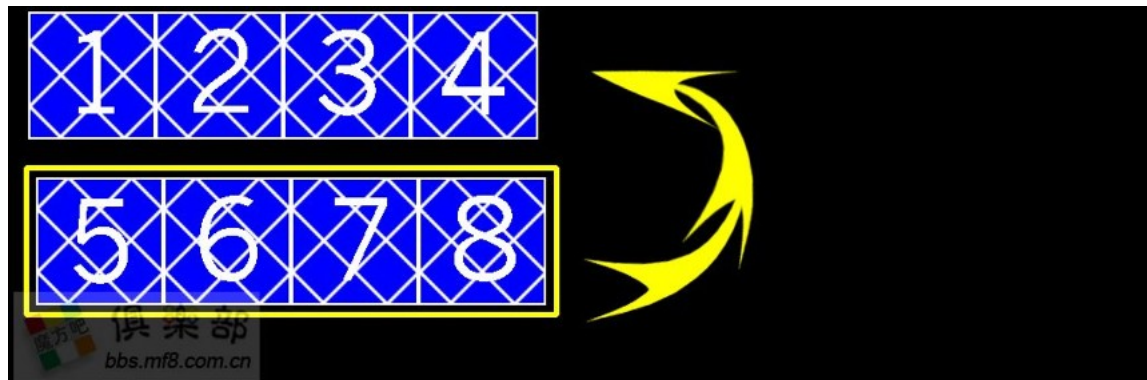

线：红色：线在板的下方

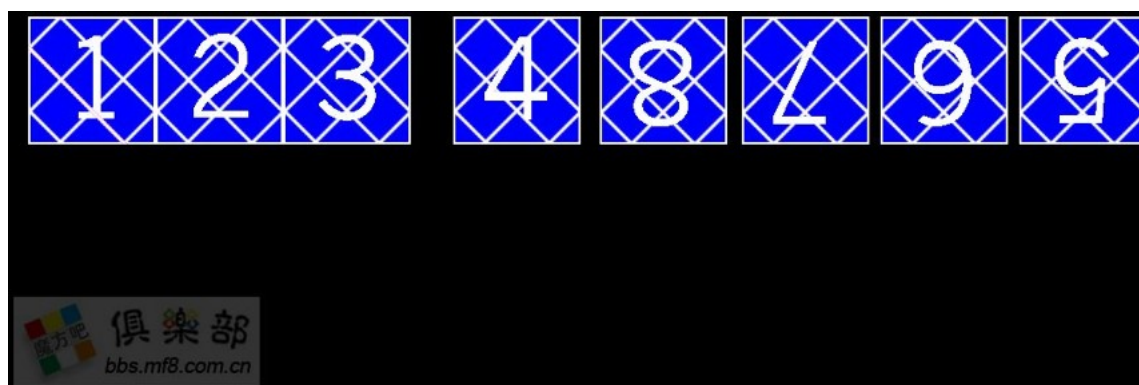

紫色：线在板的上方

先介绍一下板的位置：

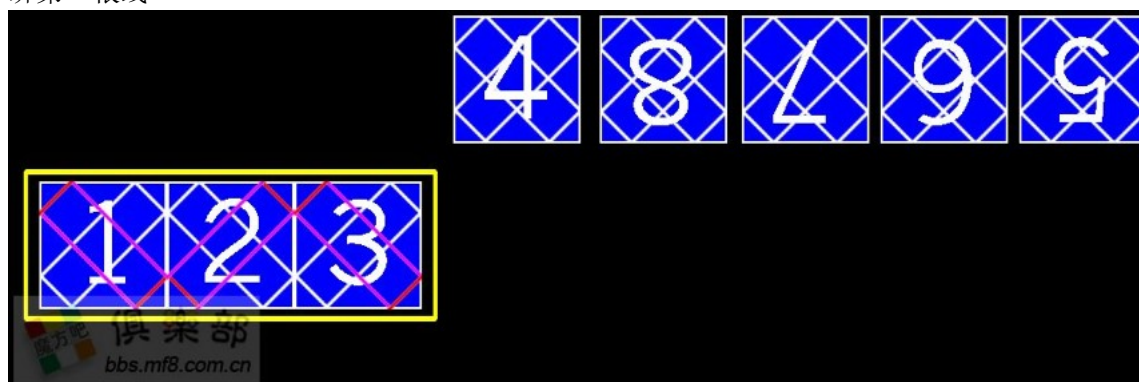

把下面的板翻转后放上面

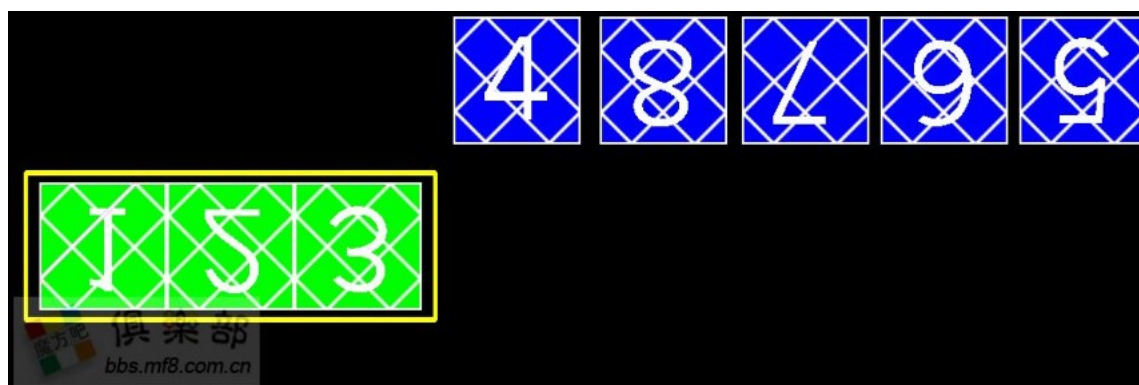

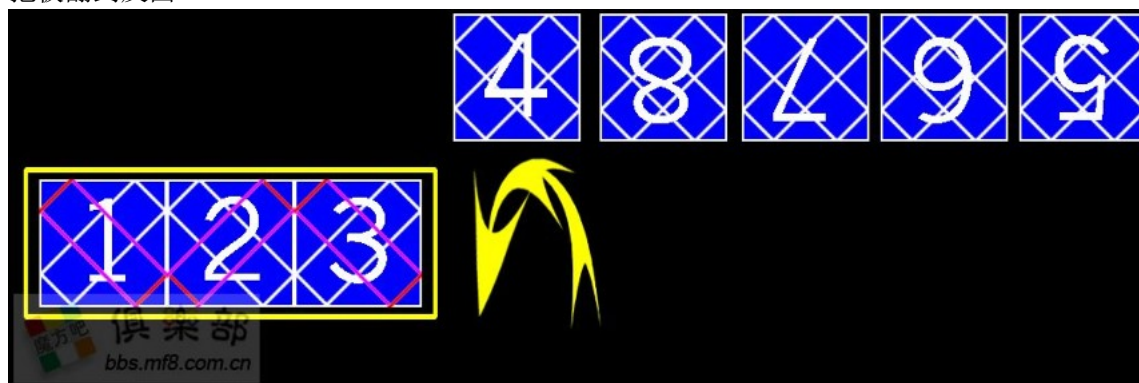

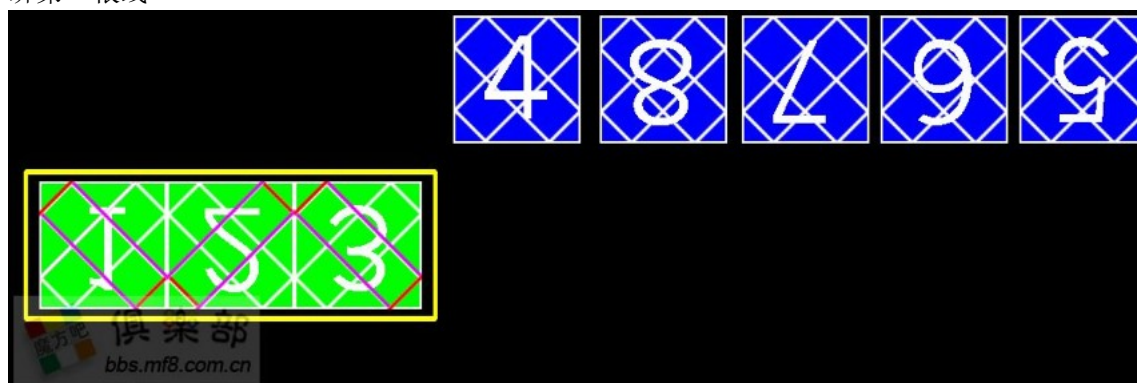

绑第一根线

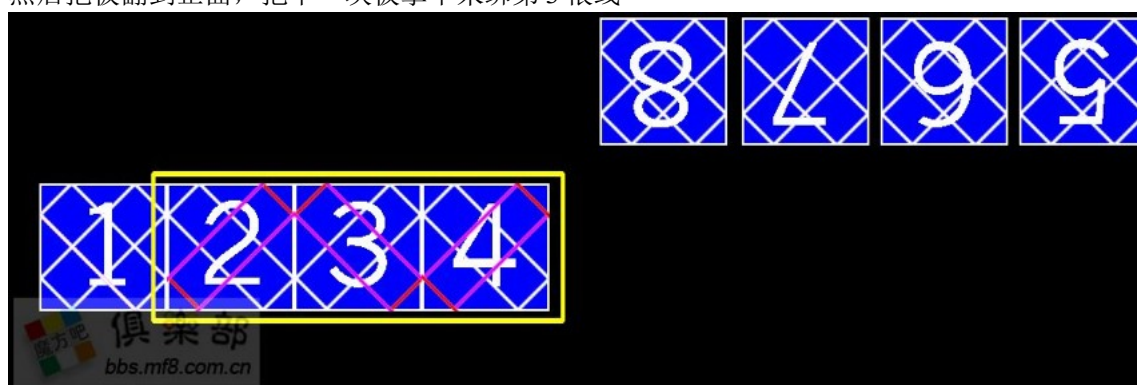

把板翻到反面

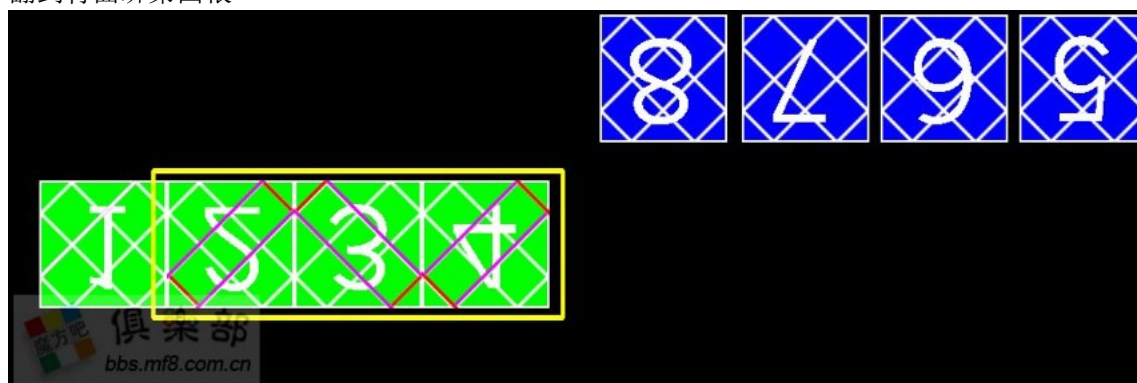

绑第二根线

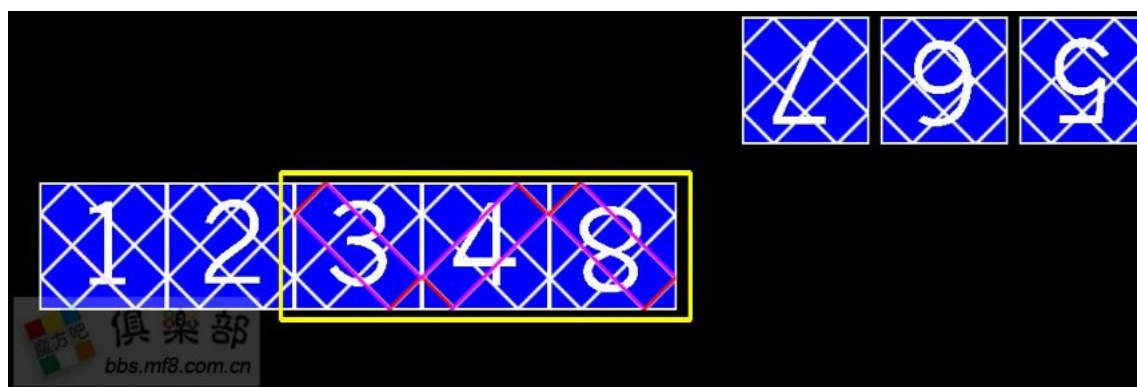

然后把板翻到正面，把下一块板拿下来绑第 3 根线

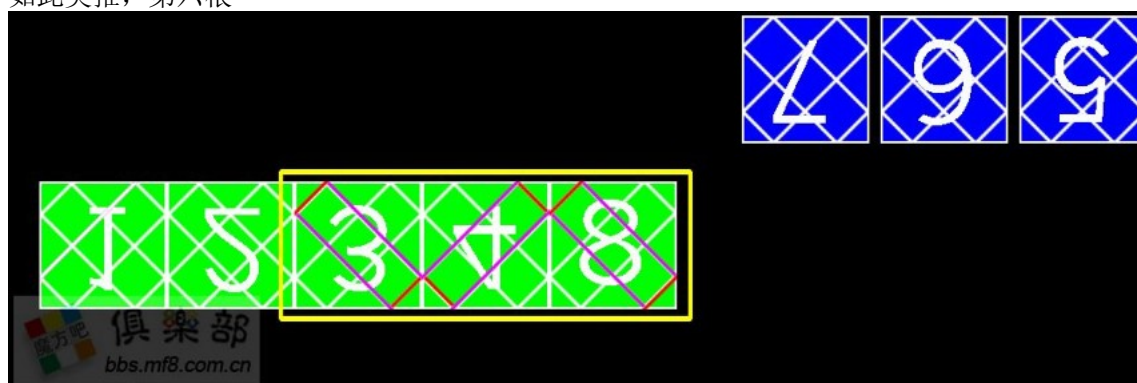

翻到背面绑第四根

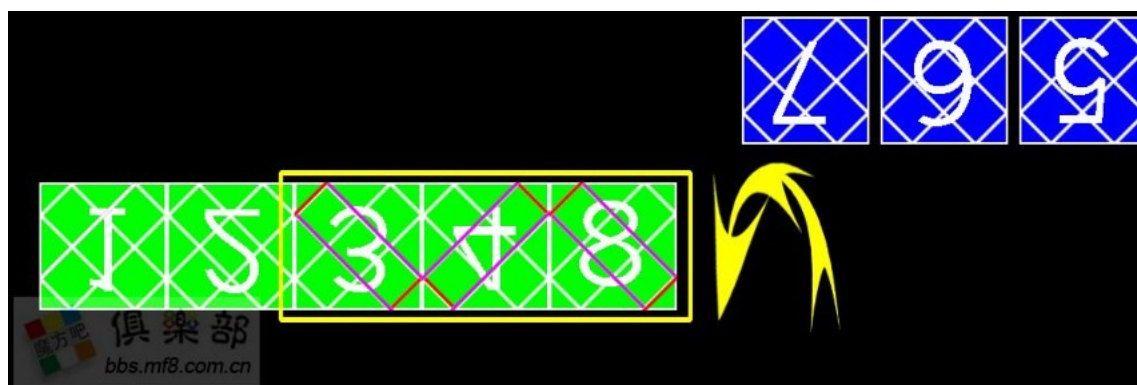

正面第 5 根

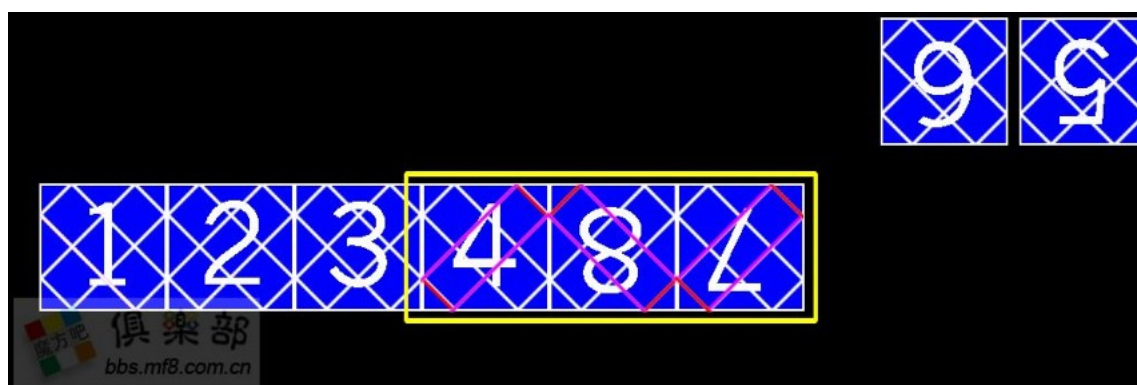

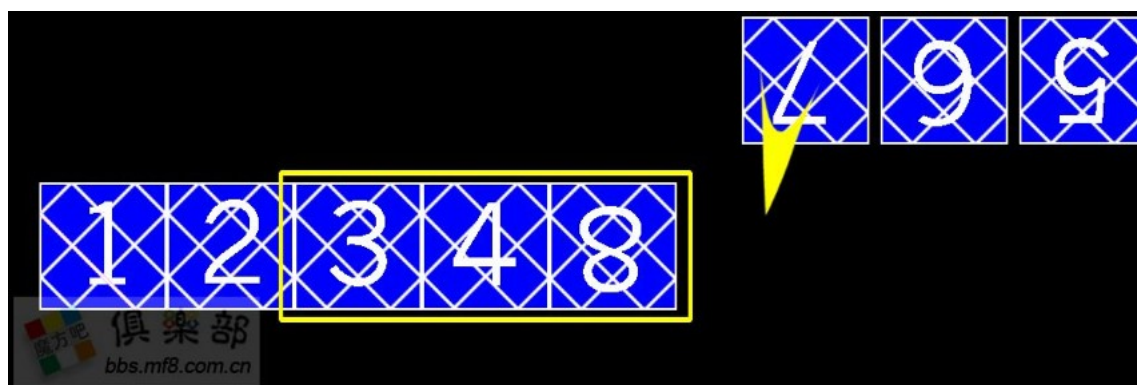

如此类推，第六根

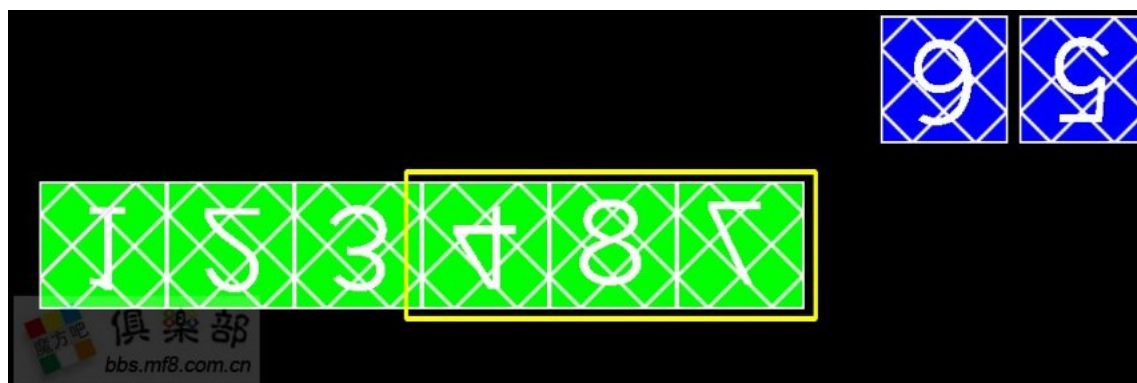

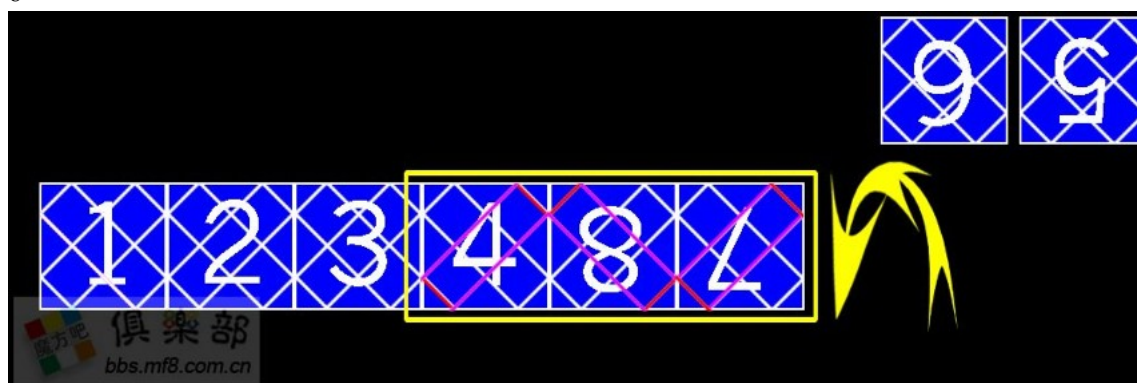

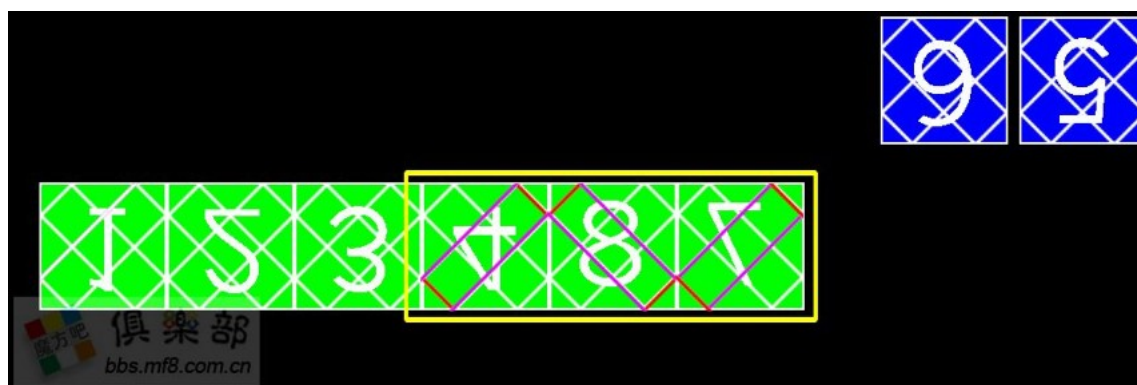

7

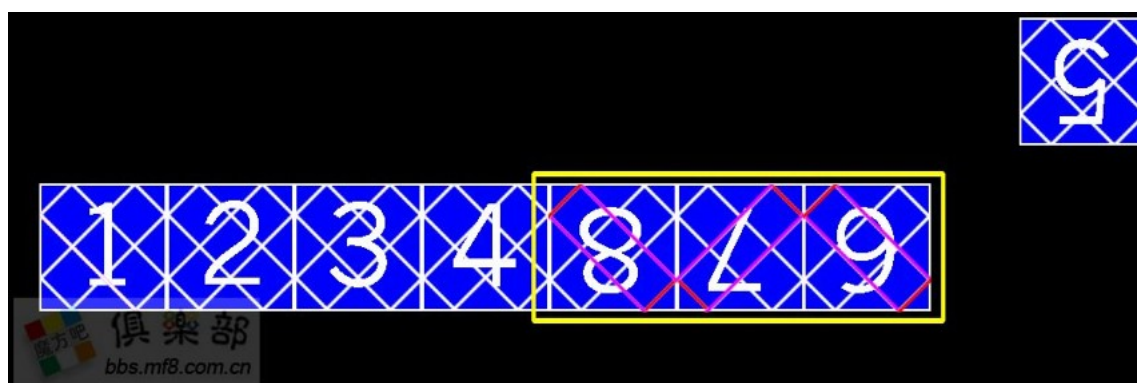

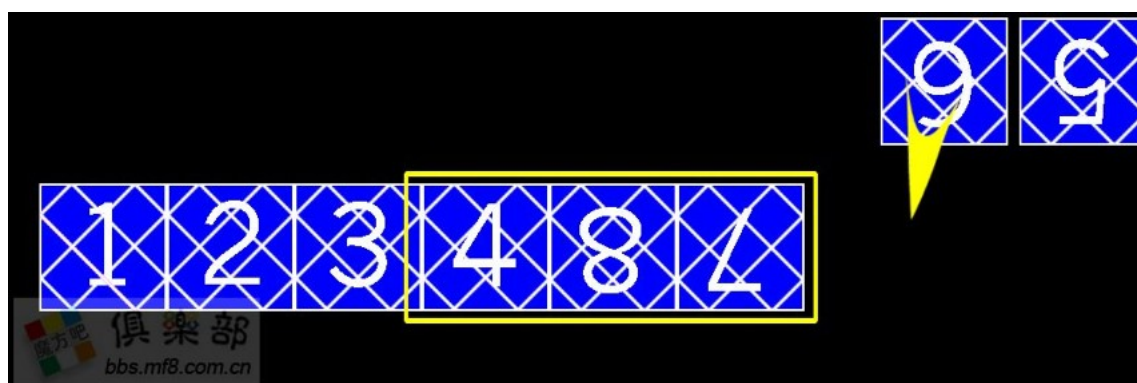

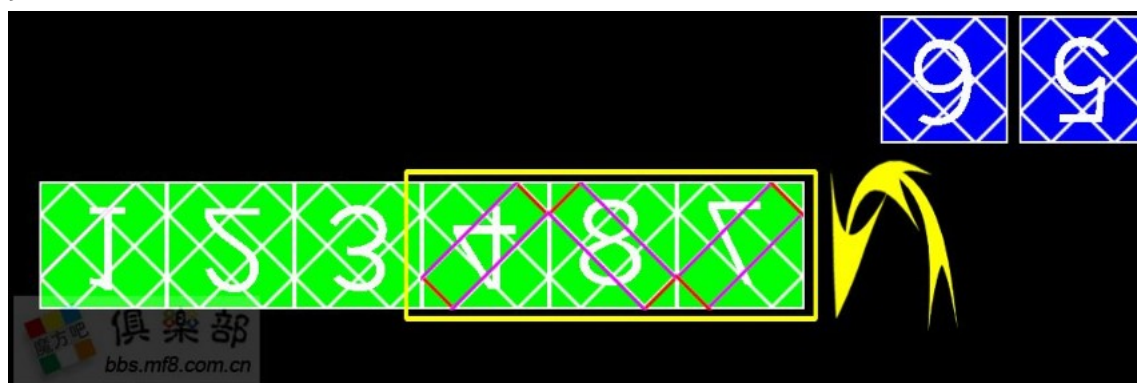

8

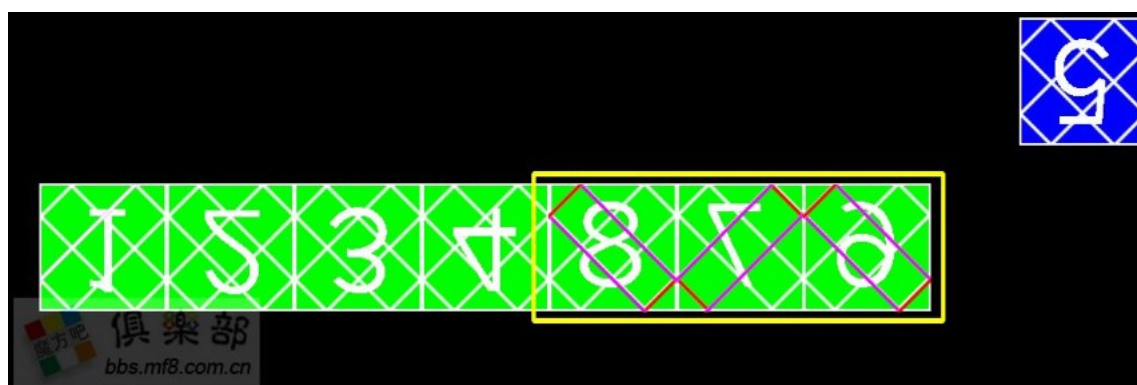

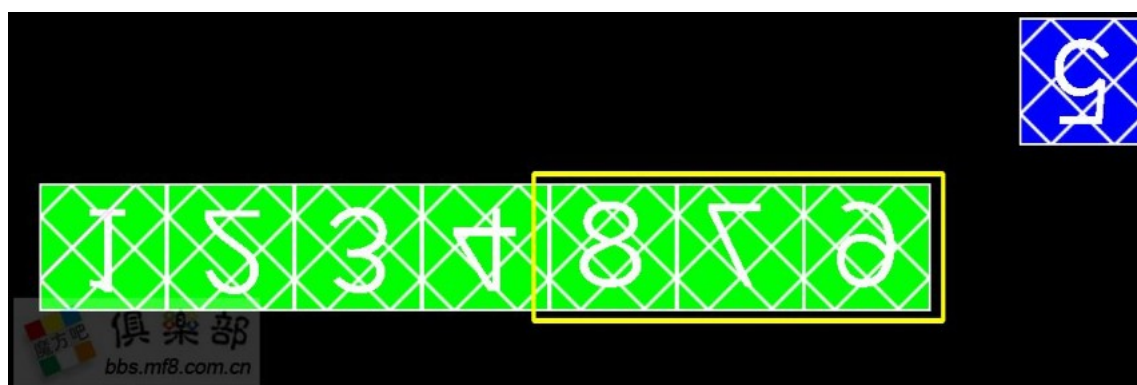

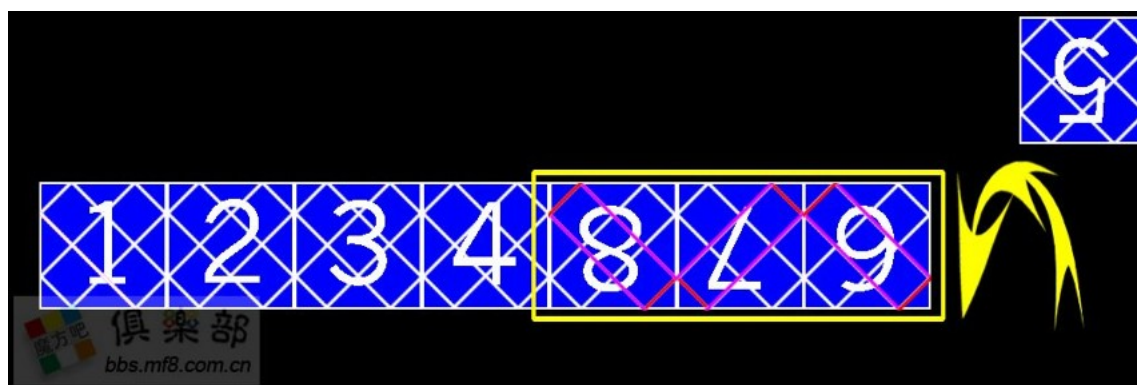

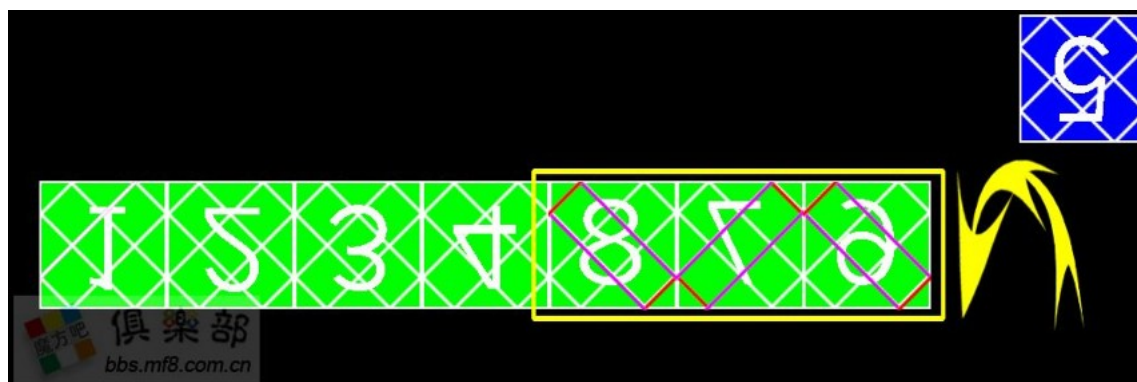

9

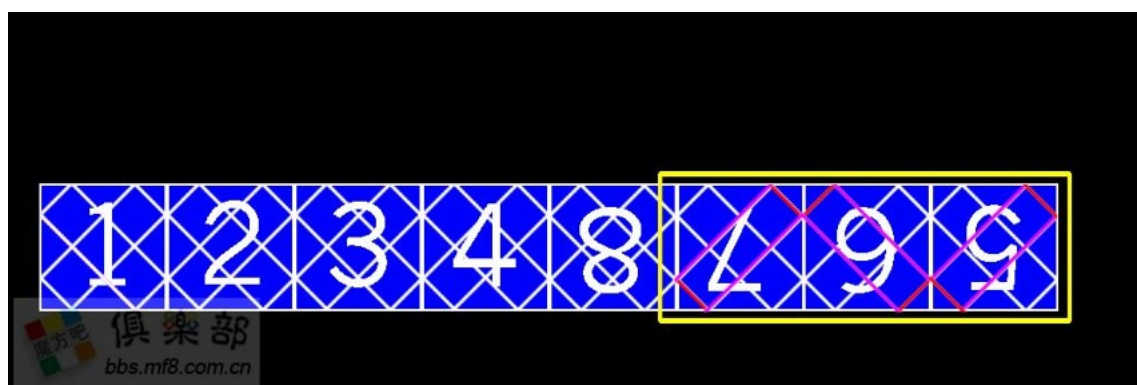

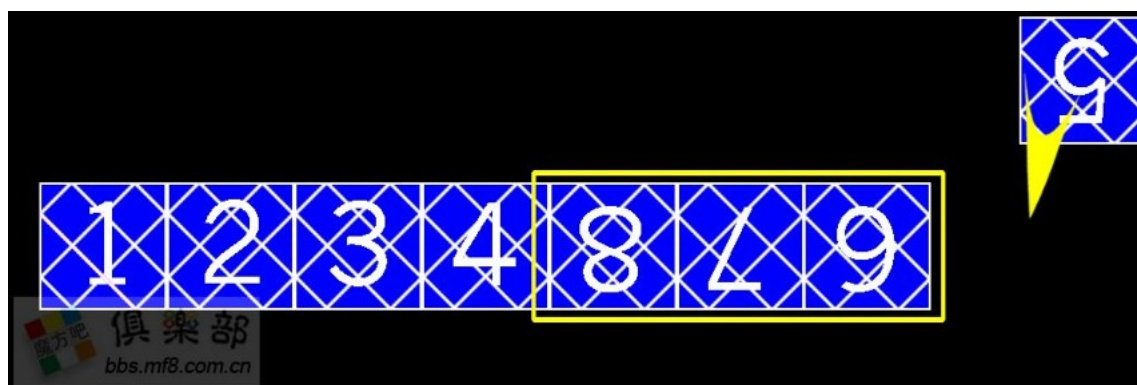

10

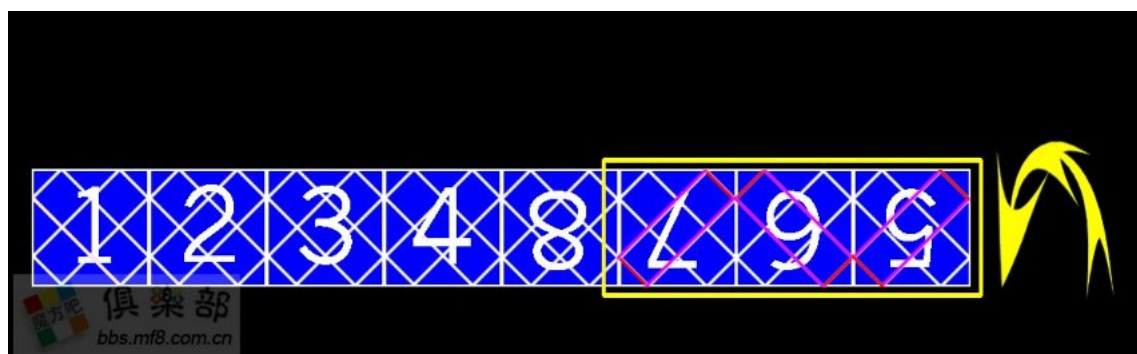

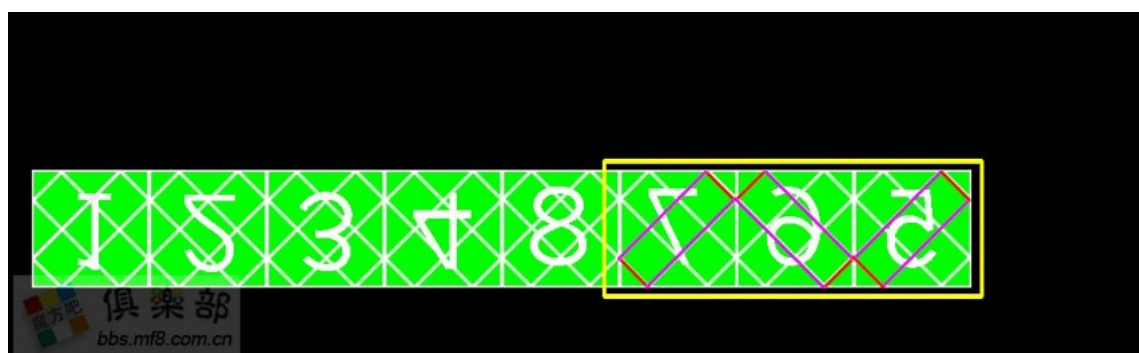

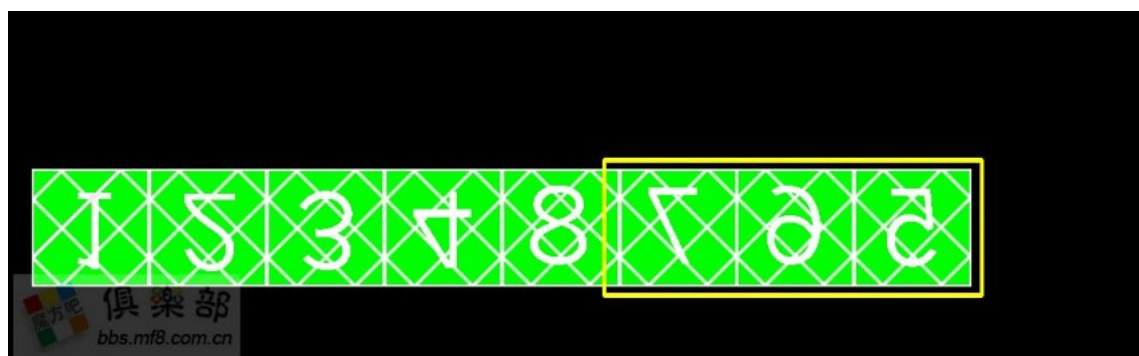

11

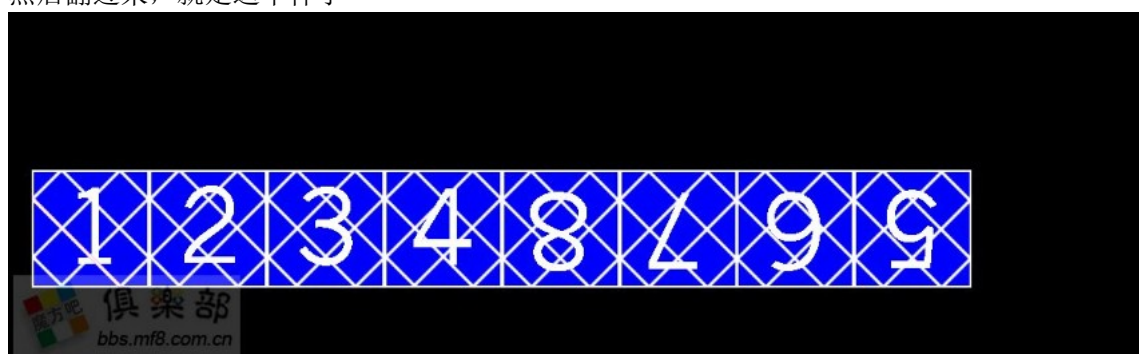

12

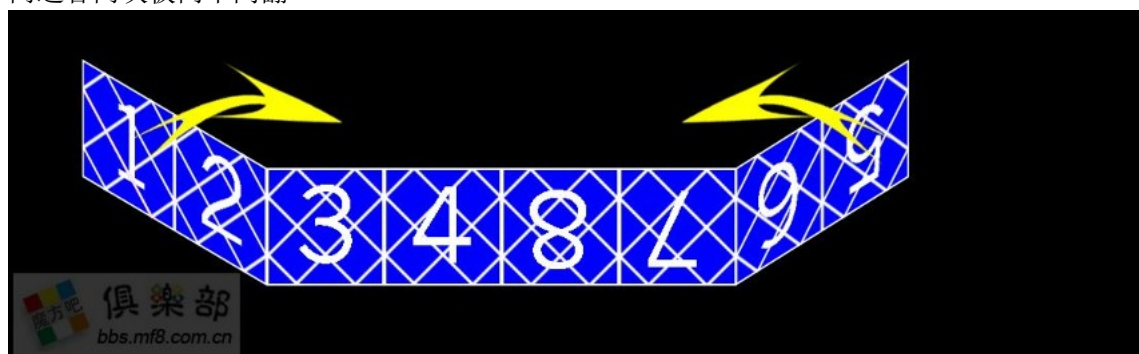

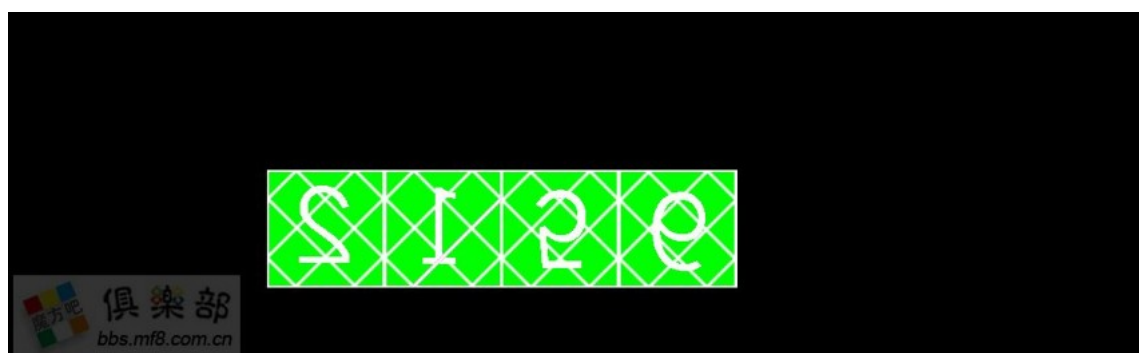

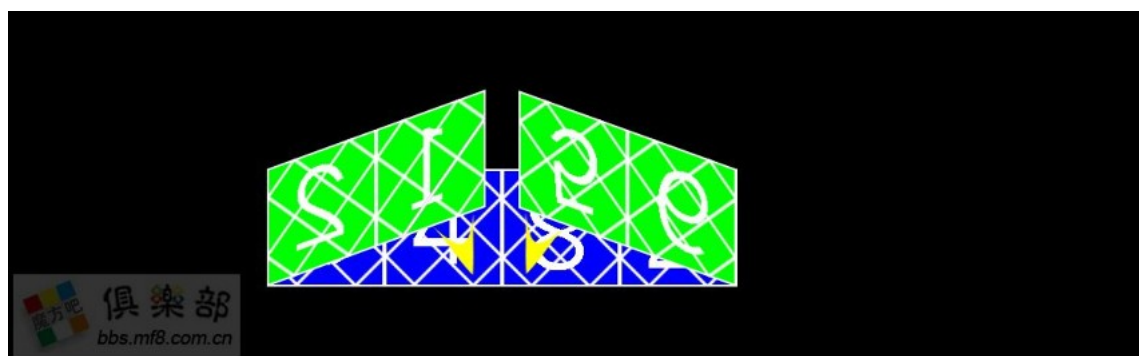

然后翻过来，就是这个样子

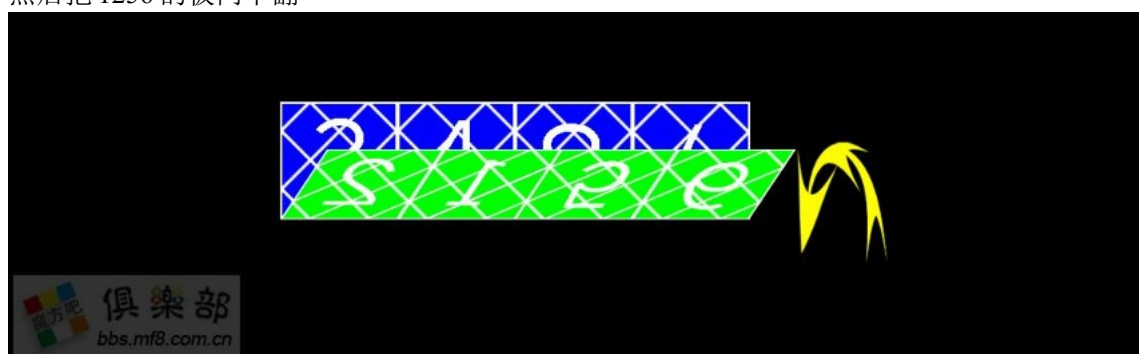

接下来是联合的时候

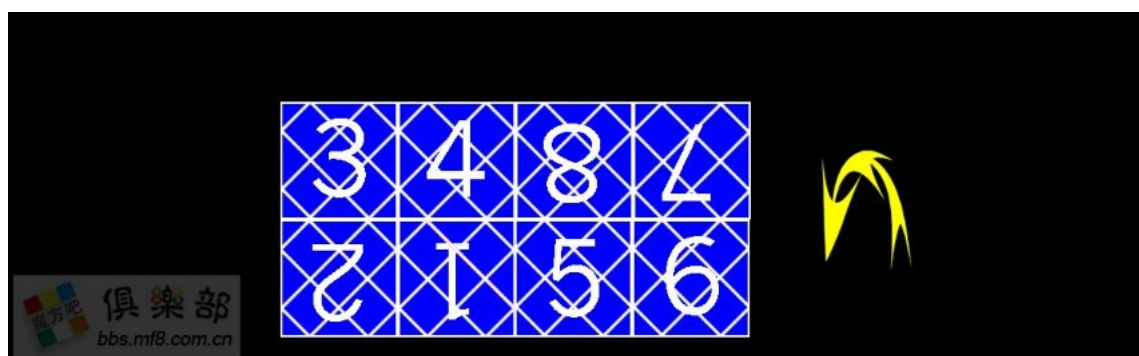

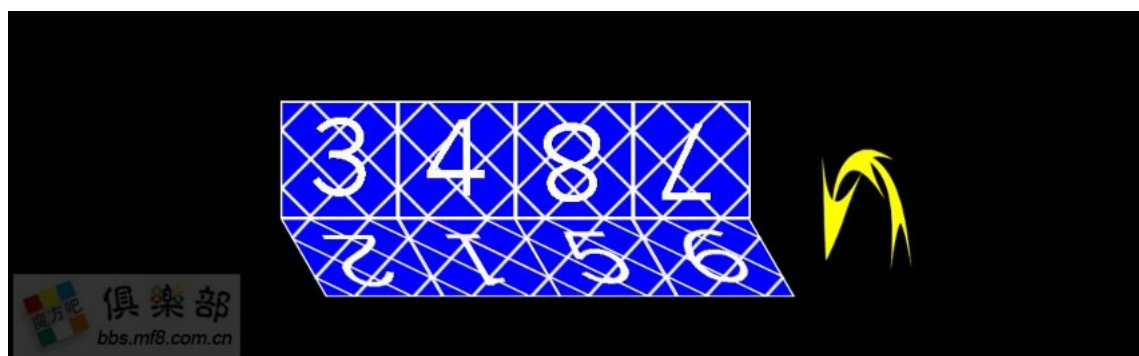

两边各两块板向中间翻

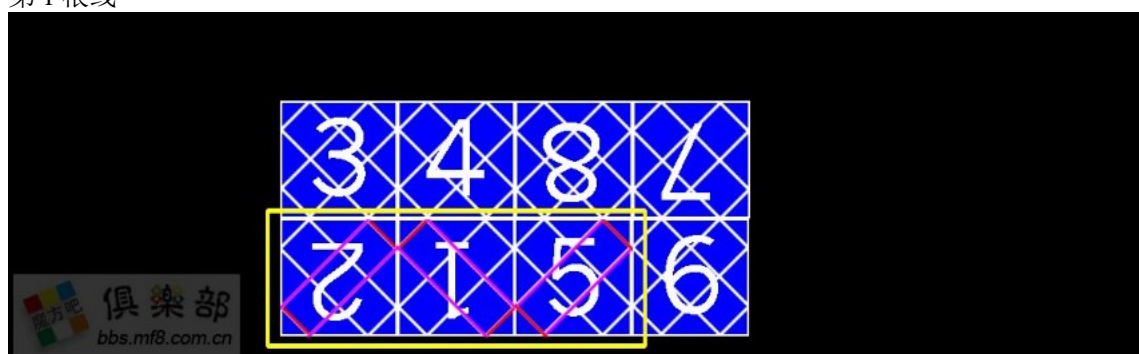

然后把 1256 的板向下翻

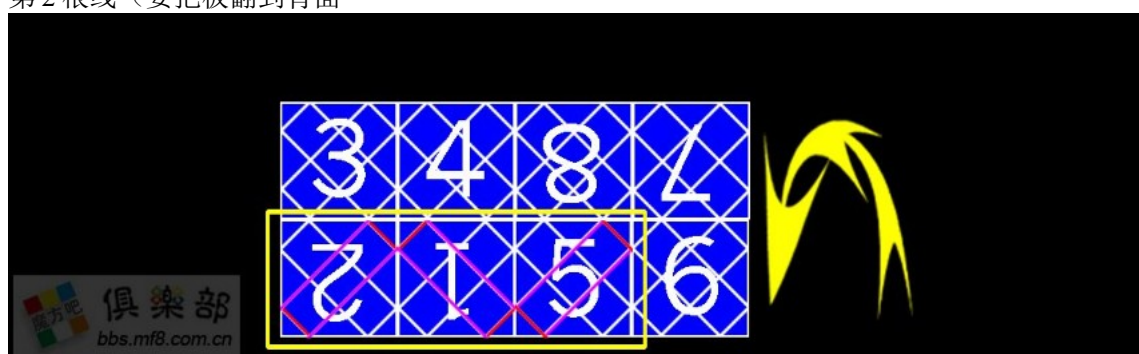

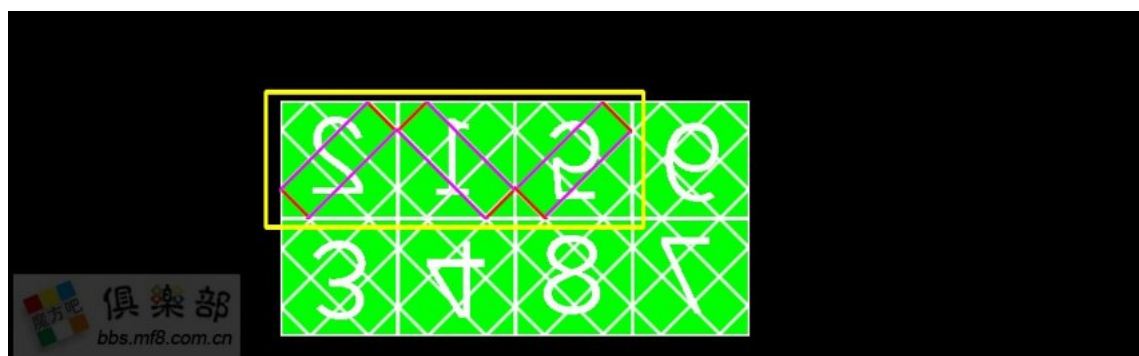

接下来用四根线把 1256 四块板绑起来

第 1 根线

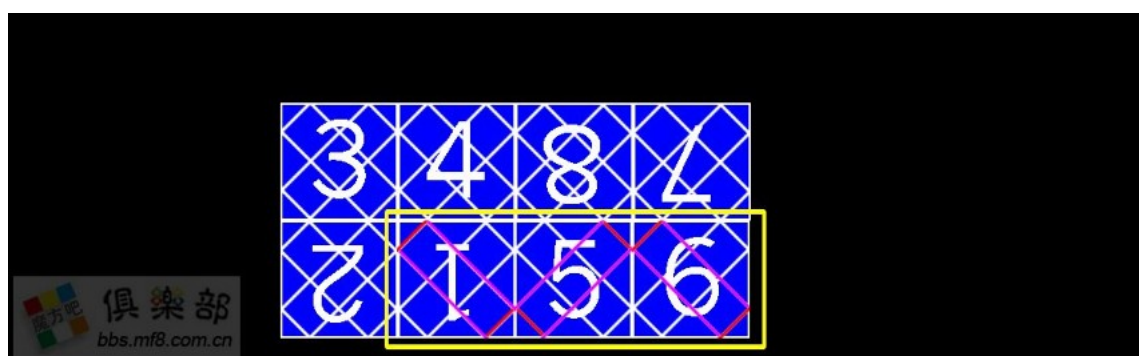

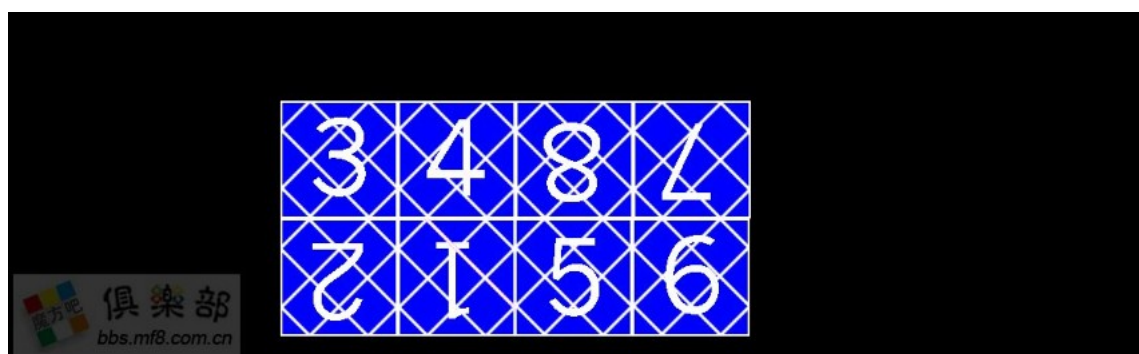

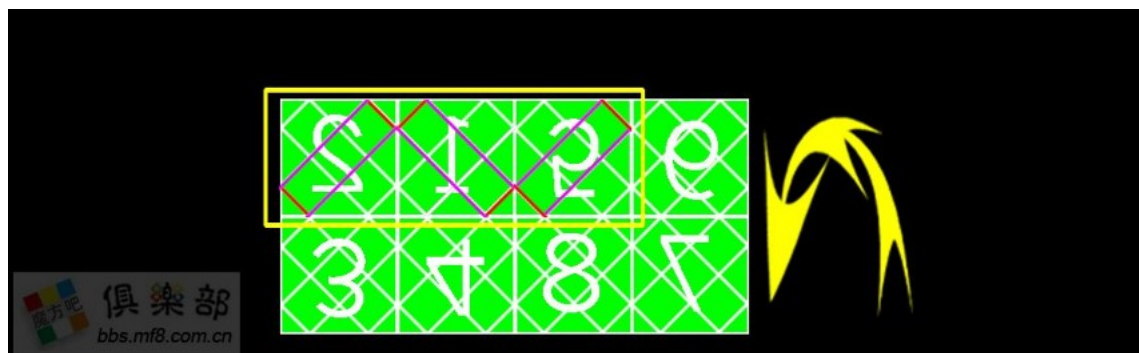

第 2 根线（要把板翻到背面）

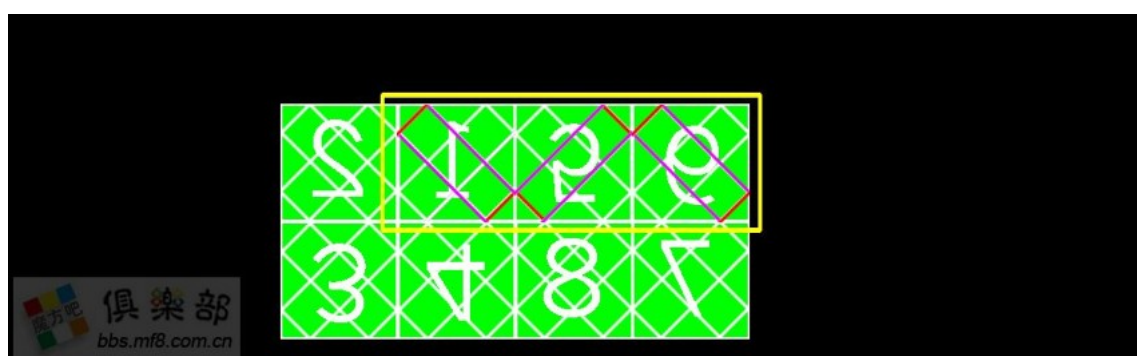

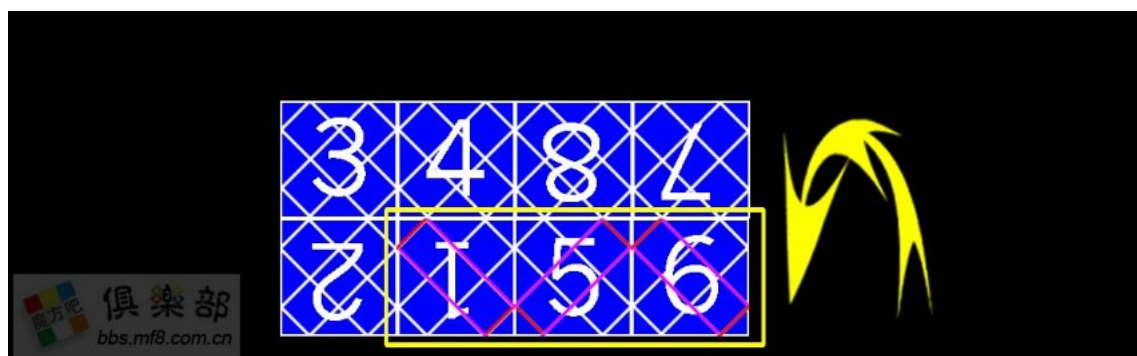

3

第四根，也就是最后一根了

然后翻过来，就全部绑好了，我相信大家都会复原吧，
